

DH Project Checklist

☐ **Collect/locate data**

Find and save a dataset in your area of interest.

☐ **Select your research methodology**

Determine which methodology is best for your data. Is it computational text analysis? Visualization? Virtual reality?

☐ **MOU (for certificate students)**

Consult your professor and Dr. Rennie Mapp to craft and submit your MOU.

☐ **Select a digital tool**

Find the digital tool that you need and learn how to use it. Consult DH@UVA list of tools and resources for further advice.

☐ **Execute project**

☐ **Present project (for certificate students)**

Ensure that you submit your project according to the expectations that you outlined with your professor in the MOU. Add completed project into your academic portfolio.
